

PPST Solutions Inc, equipment returns instructions

- Rentals can be returned at any time during the rental period. Rental units are due back the last day of the rental period for the term in which they were rented.
- All Rentals are to be returned with RMA# visible on the outside of the returning unit. Refer to “Rental, Repair or Calibration Return Material Authorization” instructions at www.ppstsolutions.com
- Make sure all items, manuals, line cords and accessories are collected and returned with the unit.
- The customer is responsible for the return shipping costs to the PPST Solutions facility return address.
- Any PPST Solutions unit weighing more than 90 lbs. will need to be boxed and mounted on a skid. If a rental was provided in a re-usable crate, that crate must be used for return. Packing of a quality less than that of the original packaging can result in shipping damage and charges incurred to the renter.
- A timely review of the unit will be performed by PPST Solutions on return to confirm operation, inventory and identify any damage. It is important to prevent stacking and cosmetic damage resulting from rubbing parts during shipment.
- If the original packaging has become unavailable, we can provide suitable packaging at special request.
- Please contact PPST Solutions ahead of return if there any questions or comments regarding the unit or return instructions.

Return Address:

PPST Solutions
17711 Mitchell North
Irvine CA, 92614
Direct: (888) .239-1619
